

Driven by quality of science and quality of service, **Labstat International Inc.** is recognized around the world as “A Centre of Analytical Excellence”.

Labstat is independent of any affiliation or association with government agencies, advocacy groups or the tobacco industry. Established in 1976 as a tobacco characterization laboratory,

Labstat has evolved into a globally recognized analytical laboratory dedicated to research, testing and analysis of nicotine containing products in general for regulatory reporting and labeling. We are GLP compliant and ISO 17025:2005 accredited, and currently hold accreditation for 160 test methods. Our unique expertise in tobacco and nicotine analysis provides an opportunistic situation for growth in the cannabis industry.

As a result of our continuing growth, Labstat has the following employment opportunity available:

Analytical Chemistry, Analyst
Posting # 2020-43

Working as a member of an analytical team accountable for the generation of analytical results within an ISO 17025 environment, as an Analyst you will be expected to carry out the responsibilities of the day-to-day operation of analytical equipment. These tasks include the preparation of solutions, calibration and routine maintenance of instruments, the running of samples, calculation of results, and the monitoring of controls used in the analytical process. An ability to troubleshoot is essential, as well as the flexibility to move between analysis.

- Experience operating **Gas Chromatography–Mass Spectrometry (GCMS) or ICP-MS, preferably with Agilent instruments**
- **Have at least 5 years of hands-on experience with advanced GCMS maintenance and troubleshooting or 2 years of experience in operation and maintenance of ICP-MS**
- Able to calibrate instrument as per SOP
- Thorough understanding of contamination and knowledgeable in using chemicals safely
- Able to prioritize to remain efficient
- Ability to work while under pressure and with various distractions
- Able to demonstrate effective communication skills
- Able to see small details for measurement of liquids, preparation of standards and maintenance required on instrumentation (GLP)

The successful candidate will possess a B.Sc. or M.Sc. (Chemistry, preferred), with minimum 5 years' experience. Shift work may be required.

You are the ideal candidate for the above position if you have a demonstrated commitment and enthusiasm for working in a team-based environment. You have excellent communication skills, high energy, and a willingness to learn and achieve results.

Labstat offers competitive wages, benefits, training programs and social events.

Labstat values a diverse workforce.

Labstat values Equal Opportunity and embraces diversity. Begin a dynamic and rewarding career by becoming a member of Labstat's team of professionals!

Labstat is committed to meeting the accessibility requirements under the AODA and we invite applicants to contact us for specific requirements.

Qualified applicants should apply with confidence quoting the appropriate posting #2020-43.
