

Driven by quality of science and quality of service, **Labstat International Inc.** is recognized around the world as “A Centre of Analytical Excellence”.

Labstat is independent of any affiliation or association with government agencies, advocacy groups or the tobacco industry. Established in 1976 as a tobacco characterization laboratory.

Labstat has evolved into a globally recognized analytical laboratory dedicated to research, testing and analysis of nicotine containing products in general for regulatory reporting and labeling. We are GLP compliant and ISO 17025:2005 accredited, and currently hold accreditation for 160 test methods. Our unique expertise in tobacco and nicotine analysis provides an opportunistic situation for growth in the cannabis industry.

As a result of our continuing growth, Labstat has the following employment opportunity available:
